

Frequently Asked Questions (FAQ's) for BAA 05-023

25 Jan 2006

Questions # 1 - 8 can be found on the first link to FAQ's

Questions # 9 - 12 can be found on the second link to FAQ's

Questions # 13 - 16 can be found on the third link to FAQ's

Questions # 17 - 20 can be found on the fourth link to FAQ's

21. This clarifies a previous response to FAQ # 16. FAQ # 16 is deleted and replaced as follows.

How does this process work with proposing Naval/DoD and Government Agencies? How does this process work with a proposing University and a Government Agency? Can a commercial or university prime fund the the Naval/DoD and/or Government Agency via subcontract or would the Naval/DoD and/or Government Agency need to be funded separately by ONR?

21A. If the proposing government entity submits a proposal that is technically meritorious and will receive funding, ONR can provide the funding to the entity on a funding document. In cases where a university or commercial entity acting as the prime, enters into a team/partnership with a Naval/DoD and/or Government Agency, ONR will normally fund the portion of work to be completed by the Naval/DoD and/or Government Agency directly through a separate funding document. Lastly, a possibility for an Inter-Intra Agency Agreement exists provided that the requirements are met at FAR 17.5.
